Japan-san with his fringe cut to the same length

FemPoland and FemLithuania as requested

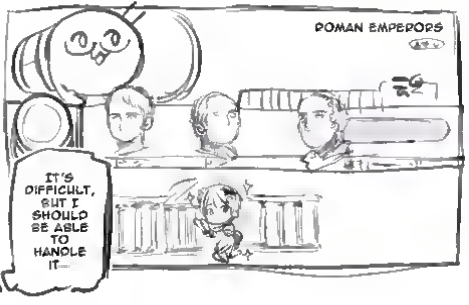
I've changed the design a little

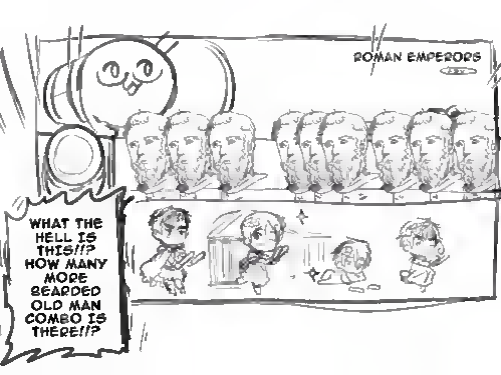
Thank you for reading my serialized manga!

I will be adding more characters very soon, so I'm been coloring some mini characters

Also, it's difficult designing the emperors!

IF YOU IMAGINE DESIGNING THE ROMAN EMPERORS LIKE IT'S THE MUSIC GAME TAIKO NO TATSUJIN, IT'D BE LIKE:





ROMAN EMPERORS
WHAT THE HELL IS THIS!!? HOW MANY MORE BEARDED OLD MAN COMBO IS THERE!!?

And because of that, the emperors end up in Japanese armors or looking like rpg warriors or dressing in cool bad boy style, it's a little out of control like that...
